HB 1056

HB 1056 provides that crop duster loading vehicles are not required to obtain a license tag and are exempt from paying motor vehicle privilege taxes and registration fees. Such vehicles don't have to pay ad valorem taxes and they are exempt from the maximum size, weight and load restrictions for public highways.

I don't have any notes on the committee discussion regarding HB 1056. Gay Wade with MDOT said that the department is fine with this bill.

HB 1056 is effective July 1, 2003.

Sign it.
