Mrs. Versie Kilpatrick
387 Country Ridge Road
Grenada, MS 38901

Mrs. Kilpatrick:

Thank you for your call regarding daycare for the handicapped children of working parents in Mississippi. I have been informed of your conversation with the representative from my office. My record strongly reflects my concern for the rights and needs of all Mississippians, including citizens with disabilities. We have worked to provide better access to medical care, to create more service options, to improve our schools or even to provide better access to the State Capital. As Governor, I want to make Mississippi a better place to live, work and visit during my next four years. I plan to work closely with our Legislators to help Mississippi achieve its greatest potential. Concerned citizens, like you, will help accomplish these goals.

If I can be of further help, please let me know.

Very truly yours,

RONNIE MUSGROVE
