

Honourable Governor,

My name is Mauro Pieroni, Florentine wood sculptor of heraldry, the only one in Europe specialised in the creation of heraldic emblems, company logos, hand-carved in precious wood.

During all these years, I have had the opportunity of expressing my art for monarchs, head of state, religious authority, prestigious international personalities.

I would be very pleased if you visited my web site to discover this very special art, passed on to me from Florentine Renaissance.

Should you be interested, I am at your disposal for sculpting the emblem of your state, in any size and finishing you may desire.

Waiting for your kind reply, I thank you for the attention.

Best regards.

Mauro Pieroni
